Thank you for confirming.

The cost proposal you submitted did not have a percentage of materials markup for specialty services (O%). Would you please confirm if this is correct **by close of business Friday 12/15?**

Will,

Absolutely Not a problem I know those bid documents get pretty hefty with all the different submissions you have to have. I do confirm that the personnel assigned to this have a minimum three years experience. Thank you for the opportunity and we look forward to doing business with you.

Hello Will,

I was hoping maybe you could clarify what needs to be in this document. I outlined our experience and qualifications in the Disinfx affirmations attached earlier in the document. Based on reading the qualifications we are licensed in Texas we have three years of experience and we have technicians over the age of 18 I also provided the references required. Any help with this would be appreciated thank you
