STATEMENT OF WORK

I. PURPOSE

System Agency will reimburse allowable costs of Grantee's youth universal prevention (YPU) services that promote a proactive process to address health and wellness for youth, families, and communities by enhancing protective factors that increase knowledge, skills, and attitudes for making healthy choices, as specified in this Contract. Universal prevention strategies take the broadest approach and are designed to reach entire groups or populations. Universal prevention strategies may target schools, workplaces, or whole communities.

Services will address the State's four prevention priorities: underage alcohol use, tobacco and nicotine products use, marijuana and other cannabinoids use, and prescription drug misuse.

Grantees providing YPU services will work together with other System Agency-funded substance abuse prevention programs to address substance use and misuse, follow the Strategic Prevention Framework (SPF) model of the Substance Abuse and Mental Health Services Administration (SAMHSA), and strengthen prevention efforts and strategies for coordination across multiple levels of impact following the Social Ecological Model <http://journals.sagepub.com/doi/pdf/10.1177/109019818801500401>.

GOAL

To provide universal prevention services utilizing associated strategies to broad populations without consideration of individual differences in risk for substance use and misuse.

II. GRANTEE RESPONSIBILITIES

A. GENERAL RESPONSIBILITIES

Grantee will:

1. provide prevention services and activities:
 - a. in accordance with the rules in [Title 25 of the Texas Administrative Code \(TAC\), Chapter 447](#);
 - b. to the identified primary and secondary populations where the target population is located;
 - c. as specified in Grantee's response to the solicitation document; and
 - d. as approved by the System Agency.
2. provide family-specific strategies, as appropriate.

3. implement all required YPU activities only in counties approved by the System Agency.
4. coordinate prevention service delivery with other System Agency-funded Grantees and other community partners to address gaps in services.
5. develop and implement written confidentiality policies and procedures.
6. securely store and maintain privacy and confidentiality of information and records concerning participants and their family members.
7. ensure all employees and volunteers follow the agency's confidentiality policies, procedures, and requirements.
8. maintain policies and procedures as required by [1 TAC §392.511](#) and applicable laws, and make them available for inspection by the System Agency. Grantee will develop and implement policies and age-appropriate procedures to protect the rights of children, families, and adults participating in a prevention program.
9. follow the National Standards for Culturally and Linguistically Appropriate Services in Health and Health Care (The National CLAS Standards, 2013) for the target population and demonstrate good-faith efforts to reach out to under-served populations. These include, but are not limited to:
 - a. people of color;
 - b. people with low educational and/or socioeconomic status;
 - c. people with limited English proficiency;
 - d. persons with disabilities;
 - e. Native American Tribes;
 - f. military and veteran personnel and their families;
 - g. people who live in Colonias; and
 - h. persons who identify as lesbian, gay, bisexual, transgender, and queer (and/or questioning) (LGBTQ).
10. ensure all participants have the right to be: free from abuse, neglect and exploitation; be treated with dignity and respect; and make a complaint to Grantee or the System Agency at any time.
11. implement the following Center for Substance Abuse Prevention (CSAP) strategies at the percentage effort noted below. These strategies will be comprehensive and age-appropriate activities:
 - a. **Prevention Education (Percentage of Effort = 70%)** is a two-way approach to teaching participants important social skills. These skills can include resisting pressure to use drugs, looking at the intent behind advertising, or developing other skills used in making healthy choices. Activities will be conducted using a System Agency-approved evidence-based curriculum proven to promote desired outcomes based on effective implementation strategies. Prevention education activities will target the Service Area specified in Grantee's response to the originally funded solicitation document, and demonstrate an effort to avoid the duplication of prevention education services.
Grantee will:

- i. ensure that individuals delivering prevention education have received the developer's curriculum training through the System Agency-funded training entity prior to service delivery.
 - ii. conduct activities with fidelity according to the curriculum developer and document each session for this strategy using the System Agency-approved form. In addition, Grantee will document each curriculum cycle using the System Agency-approved form.
 - iii. use System Agency-approved procedures (including the System Agency-approved templates) for obtaining consent from participants and their parents/legal guardians. Grantee will maintain all relevant consent documentation on file.
 - iv. administer System Agency provided curriculum pre- and post- tests for all participants enrolled in prevention education. Online access to all required forms or templates will be provided by the System Agency.
 - v. adhere to System Agency guidelines and expectations regarding the administering of all curriculum pre- and post- tests and maintain all pre- and post- tests in participant files for review by the System Agency.
- b. **Information Dissemination (Percentage of Effort = 15%)** increases knowledge and changes attitudes through communications. This method is mainly one-way (i.e., classroom speakers or media campaigns). Information dissemination may be conducted in the form of Alcohol, Tobacco, and Other Drug (ATOD) Presentations or through Media Awareness Activities.
- i. ATOD Presentations are conducted as stand alone, age-appropriate activities that increase knowledge or create awareness to the State's four prevention priorities. Grantee will conduct the information dissemination activities and document this strategy using the System Agency-approved template.
 - ii. Media Awareness Activities are marketing campaigns that serve the target population. Grantee will follow guidelines described in the SAMHSA toolkit, *Focus on Prevention-Strategies and Programs to Prevent Substance Use* (<https://store.samhsa.gov/product/Focus-on-Prevention/sma10-4120>), to create a successful media campaign and coordinate and collaborate with the System Agency Prevention Media Campaign and other System Agency-funded Grantees to develop and/or promote a consistent statewide message.
 - iii. ATOD Presentations and Media Awareness Activities that focus on minors and tobacco and other nicotine products will include information on tobacco/nicotine cessation, Texas tobacco laws as they apply to minors, and health consequences associated with the use of tobacco and other nicotine products.
- c. **Positive Alternatives and Community-Based Processes (Percentage of Effort = 10%)**

- i. **Positive Alternatives** provide fun, challenging, and structured activities with supervision so people have constructive and healthy ways to enjoy free time and learn skills. These alcohol and drug-free activities are provided with the intent to help people, particularly young people, stay away from situations that encourage use of alcohol, tobacco or other drugs.
 - 1) This strategy is documented using the System Agency-approved template. Any activities, including Positive Alternatives, that occur off-site or involve participant travel, require written consent from all participants and their parents/legal guardians.
 - 2) Allowable costs for Positive Alternatives will not exceed \$500 per event or \$10 per participant, whichever amount is less. Funds exceeding this amount will have prior approval from the System Agency.
- ii. **Community-Based Processes** strengthen resources such as community coalitions to prevent substance use and misuse. Organizing, planning, and networking are included in this strategy to increase the community's ability to deliver effective prevention and treatment services; educate and mobilize the community toward prevention efforts; and provide the Grantee with opportunities to obtain meaningful Community Agreements (CAs) with agencies, community sites, Prevention Resource Centers (PRCs) and other stakeholders that enhance prevention efforts. A Community Agreement may include a Memorandum of Understanding (MOU), a Letter of Agreement (LOA), and/or a Memorandum of Agreement (MOA). CAs will represent diversified resources that may include, but are not limited to, mentoring, substance abuse prevention related data, behavioral health services, counseling, school success, and other health and human needs.

Grantee will:

- 1) participate in, and collaborate with, System Agency-funded coalitions in order to strengthen and promote prevention activities, and promote behavioral health environmental strategies. If a System Agency-funded coalition is not located within the Grantee's service area, the Grantee will then collaborate with a non-System Agency-funded coalition; and/or
- 2) conduct and/or participate in Community-Based Education and Mobilization Activities. Such activities may include, but are not limited to, participation in community health fairs, parent-teacher nights, school board meetings, and other related community-based activities.

Grantee will refer to **Section II, item No. 13. Policy/Procedural Requirements.**

Requirements for the Certified Prevention Specialist (CPS) certification, Advanced Certified Prevention Specialist (ACPS) certification, and the Associate Prevention Specialist (APS) designation may be obtained by visiting the Texas Certification Board of Addiction Professionals (TCBAP) website at www.tcbap.org.

At its sole discretion, the System Agency will determine whether costs submitted by Grantee are allowable and eligible for reimbursement. The System Agency may take repayment (recoup) from funds available under this Contract in amounts necessary to fulfill Grantee’s repayment obligations. Applicable cost principles, audit requirements, and administrative requirements include, but are not limited to:

In the event that Grantee has any rights in and to the Work Product that cannot be assigned to System Agency, Grantee hereby grants to System Agency an exclusive, worldwide, royalty-free, transferable, irrevocable, and perpetual license, with the right to sublicense, to reproduce, distribute, modify, create derivative works of, publicly perform and publicly display, make, have made, use, sell and offer for sale the Work Product and any products developed by practicing such rights.

6.2 GRANTEE'S PRE-EXISTING WORKS

To the extent that Grantee incorporates into the Work Product any works of Grantee that were created by Grantee or that Grantee acquired rights in prior to the Effective Date of this Contract ("**Incorporated Pre-existing Works**"), Grantee retains ownership of such Incorporated Pre-existing Works, and Grantee hereby grants to System Agency an irrevocable, perpetual, non-exclusive, royalty-free, transferable, worldwide right and license, with the right to sublicense, to use, modify, copy, create derivative works of, publish, publicly perform and display, sell, offer to sell, make and have made, the Incorporated Pre-existing Works, in any medium, with or without the associated Work Product. Grantee represents, warrants, and covenants to System Agency that Grantee has all necessary right and authority to grant the foregoing license in the Incorporated Pre-existing Works to System Agency.

6.3 AGREEMENTS WITH EMPLOYEES AND SUBCONTRACTORS

Grantee shall have written, binding agreements with its employees and subcontractors that include provisions sufficient to give effect to and enable Grantee's compliance with Grantee's obligations under this **Article VI**.

6.4 DELIVERY UPON TERMINATION OR EXPIRATION

No later than the first calendar day after the termination or expiration of the Contract or upon System Agency's request, Grantee shall deliver to System Agency all completed, or partially completed, Work Product, including any Incorporated Pre-existing Works, and any and all versions thereof. Grantee's failure to timely deliver such Work Product is a material breach of the Contract. Grantee will not retain any copies of the Work Product or any documentation or other products or results of Grantee's activities under the Contract without the prior written consent of System Agency.

6.5 SURVIVAL

The provisions and obligations of this **Article VI** survive any termination or expiration of the Contract.

ARTICLE VII. RECORDS, AUDIT, AND DISCLOSURE

7.1 BOOKS AND RECORDS

Grantee shall keep and maintain under GAAP or GASB, as applicable, full, true, and complete records necessary to fully disclose to the System Agency, the Texas State Auditor's Office, the United States Government, and their authorized representatives sufficient information to determine compliance with the terms and conditions of this Contract and all state and federal rules, regulations, and statutes. Unless otherwise specified in this Contract, Grantee shall maintain legible copies of this Contract and all related documents for a minimum of seven (7) years after the termination of the Contract period or seven (7) years after the completion of any litigation or dispute involving the Contract, whichever is later.

7.2 ACCESS TO RECORDS, BOOKS, AND DOCUMENTS

In addition to any right of access arising by operation of law, Grantee and any of Grantee's affiliate or subsidiary organizations, or Subcontractors shall permit the System Agency or any of its duly authorized representatives, as well as duly authorized federal, state or local authorities, unrestricted access to and the right to examine any site where business is conducted or services are performed, and all records, which includes but is not limited to financial, client and patient records, books, papers or documents related to this Contract. If the Contract includes federal funds, federal agencies that shall have a right of access to records as described in this section include: the federal agency providing the funds, the Comptroller General of the United States, the General Accounting Office, the Office of the Inspector General, and any of their authorized representatives. In addition, agencies of the State of Texas that shall have a right of access to records as described in this section include: the System Agency, HHSC, HHSC's contracted examiners, the State Auditor's Office, the Office of the Texas Attorney General, and any successor agencies. Each of these entities may be a duly authorized authority. If deemed necessary by the System Agency or any duly authorized authority, for the purpose of investigation or hearing, Grantee shall produce original documents related to this Contract. The System Agency and any duly authorized authority shall have the right to audit billings both before and after payment, and all documentation that substantiates the billings. Grantee shall include this provision concerning the right of access to, and examination of, sites and information related to this Contract in any Subcontract it awards.

7.3 RESPONSE/COMPLIANCE WITH AUDIT OR INSPECTION FINDINGS

- A. Grantee must act to ensure its and its Subcontractors' compliance with all corrections necessary to address any finding of noncompliance with any law, regulation, audit requirement, or generally accepted accounting principle, or any other deficiency identified in any audit, review, or inspection of the Contract and the services and Deliverables provided. Any such correction will be at Grantee's or its Subcontractor's sole expense. Whether Grantee's action corrects the noncompliance shall be solely the decision of the System Agency.
- B. As part of the services, Grantee must provide to HHSC upon request a copy of those portions of Grantee's and its Subcontractors' internal audit reports relating to the services and Deliverables provided to the State under the Contract.

7.4 SAO AUDIT

- A. The state auditor may conduct an audit or investigation of any entity receiving funds from the state directly under the Contract or indirectly through a subcontract under the Contract. The acceptance of funds directly under the Contract or indirectly through a subcontract under the Contract acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. Under the direction of the legislative audit committee, an entity that is the subject of an audit or investigation by the state auditor must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.
- B. Grantee shall comply with any rules and procedures of the state auditor in the implementation and enforcement of Section 2262.154 of the Texas Government Code.

7.5 CONFIDENTIALITY

Grantee shall maintain as confidential, and shall not disclose to third parties without System Agency's prior written consent, any System Agency information including but not limited to System Agency's business activities, practices, systems, conditions and services. This section will survive termination or expiration of this Contract.

8.1 CONTRACT REMEDIES

To ensure Grantee's full performance of the Contract and compliance with applicable law, the System Agency reserves the right to hold Grantee accountable for breach of contract or substandard performance and may take remedial or corrective actions, including, but not limited to:

- i. suspending all or part of the Contract;
- ii. requiring the Grantee to take specific actions in order to remain in compliance with the Contract;

- v. imposing any other remedies, sanctions or penalties authorized under this Contract or permitted by federal or state statute, law, regulation or rule.

8.2 TERMINATION FOR CONVENIENCE

The System Agency may terminate the Contract at any time when, in its sole discretion, the System Agency determines that termination is in the best interests of the State of Texas. The termination will be effective on the date specified in HHSC's notice of termination. The System Agency's right to terminate the Contract for convenience is cumulative of all rights and remedies which exist now or in the future.

8.3 TERMINATION FOR CAUSE

Except as otherwise provided by the U.S. Bankruptcy Code, or any successor law, the System Agency may terminate the Contract, in whole or in part, upon either of the following conditions:

i. **Material Breach**

The System Agency will have the right to terminate the Contract in whole or in part if the System Agency determines, in its sole discretion, that Grantee has materially breached the Contract or has failed to adhere to any laws, ordinances, rules, regulations or orders of any public authority having jurisdiction and such violation prevents or substantially impairs performance of Grantee's duties under the Contract. Grantee's misrepresentation in any aspect of Grantee's Solicitation Response, if any, or Grantee's addition to the Excluded Parties List System (EPLS) will also constitute a material breach of the Contract.

ii. **Failure to Maintain Financial Viability**

The System Agency may terminate the Contract if, in its sole discretion, the System Agency has a good faith belief that Grantee no longer maintains the financial viability required to complete the services and Deliverables, or otherwise fully perform its responsibilities under the Contract.

ARTICLE IX. MISCELLANEOUS PROVISIONS

The Contract may only be amended by an Amendment executed by both Parties.

9.2 INSURANCE

Grantee shall provide evidence of insurance as required under this Contract, including a schedule of coverage or underwriter's schedules establishing to the satisfaction of the System Agency the nature and extent of coverage granted by each such policy, upon request by the System Agency. In the event that any policy is determined by the System Agency to be deficient to comply with the terms of this Contract, Grantee shall secure such additional policies or coverage as the System Agency may reasonably request or that are required by law or regulation. If coverage expires during the term of this Contract, Grantee must produce renewal certificates for each type of coverage.
- B. These and all other insurance requirements under the Contract apply to both Grantee and its Subcontractors, if any. Grantee is responsible for ensuring its Subcontractors' compliance with all requirements.

THE DEFENSE SHALL BE COORDINATED BY GRANTEE WITH THE OFFICE OF THE TEXAS ATTORNEY GENERAL WHEN TEXAS STATE AGENCIES ARE NAMED DEFENDANTS IN ANY LAWSUIT AND GRANTEE MAY NOT AGREE TO ANY SETTLEMENT WITHOUT FIRST OBTAINING THE CONCURRENCE FROM THE OFFICE OF THE TEXAS ATTORNEY GENERAL. GRANTEE AND SYSTEM AGENCY AGREE TO FURNISH TIMELY WRITTEN NOTICE TO EACH OTHER OF ANY SUCH CLAIM.**
- B. THIS PARAGRAPH IS NOT INTENDED TO AND SHALL NOT BE CONSTRUED TO REQUIRE GRANTEE TO INDEMNIFY OR HOLD HARMLESS THE STATE OR THE SYSTEM AGENCY FOR ANY CLAIMS OR LIABILITIES RESULTING FROM THE NEGLIGENCE ACTS OR OMISSIONS OF THE SYSTEM AGENCY OR ITS EMPLOYEES.**
- C. For the avoidance of doubt, System Agency shall not indemnify Grantee or any other entity under the Contract.**

9.6 ASSIGNMENTS

- A. Grantee may not assign all or any portion of its rights under, interests in, or duties required under this Contract without prior written consent of the System Agency, which may be withheld or granted at the sole discretion of the System Agency. Except where otherwise agreed in writing by the System Agency, assignment will not release Grantee from its obligations under the Contract.
- B. Grantee understands and agrees the System Agency may in one or more transactions assign, pledge, or transfer the Contract. This assignment will only be made to another State agency or a non-state agency that is contracted to perform agency support.

9.7 INDEPENDENT CONTRACTOR

Grantee and Grantee's employees, representatives, agents, Subcontractors, suppliers, and third-party service providers shall serve as independent contractors in providing the services under the Contract. Neither Grantee nor System Agency is an agent of the other and neither may make any commitments on the other party's behalf. Should Grantee subcontract any of the services required in the Contract, Grantee expressly understands and acknowledges that in entering such subcontract(s), System Agency is in no manner liable to any Subcontractor(s) of Grantee. In no event shall this provision relieve Grantee of the responsibility for ensuring that the services performed under all subcontracts are rendered in compliance with the Contract. Grantee shall have no claim against System Agency for vacation pay, sick leave, retirement benefits, social security, worker's compensation, health or disability benefits, unemployment insurance benefits, or employee benefits of any kind. The Contract shall not create any joint venture, partnership, agency, or employment relationship between Grantee and System Agency.

9.8 TECHNICAL GUIDANCE LETTERS

In the sole discretion of the System Agency, and in conformance with federal and state law, the System Agency may issue instructions, clarifications, or interpretations as may be required during work performance in the form of a Technical Guidance Letter (TGL). A TGL must be in writing, and may be delivered by regular mail, electronic mail, or facsimile transmission. Any TGL issued by the System Agency will be incorporated into the Contract by reference for all purposes when it is issued.

9.9 DISPUTE RESOLUTION

- A. The dispute resolution process provided for in Chapter 2260 of the Texas Government Code must be used to attempt to resolve any dispute arising under the Contract.
- B. If a contract dispute arises that cannot be resolved to the satisfaction of the Parties, either Party may notify the other Party in writing of the dispute. If the Parties are unable to satisfactorily resolve the dispute within fourteen (14) days of the written notification, the Parties must use the dispute resolution process provided for in Chapter 2260 of the Texas Government Code to attempt to resolve the dispute. This provision will not apply to any matter with respect to which either Party may make a decision within its respective sole discretion.

9.10 GOVERNING LAW AND VENUE

The Contract shall be governed by and construed in accordance with the laws of the State of Texas, without regard to the conflicts of law provisions. The venue of any suit arising under the Contract is fixed in any court of competent jurisdiction of Travis County, Texas, unless the specific venue is otherwise identified in a statute which directly names or otherwise identifies its applicability to the System Agency.

9.11 SEVERABILITY

If any provision contained in this Contract is held to be unenforceable by a court of law or equity, this Contract shall be construed as if such provision did not exist and the non-

enforceability of such provision shall not be held to render any other provision or provisions of this Contract unenforceable.

9.12 SURVIVABILITY

Expiration or termination of the Contract for any reason does not release Grantee from any liability or obligation set forth in the Contract that is expressly stated to survive any such expiration or termination, that by its nature would be intended to be applicable following any such expiration or termination, or that is necessary to fulfill the essential purpose of the Contract, including without limitation the provisions regarding warranty, indemnification, confidentiality, and rights and remedies upon termination.

9.13 FORCE MAJEURE

Neither Grantee nor System Agency shall be liable to the other for any delay in, or failure of performance, of any requirement included in the Contract caused by force majeure. The existence of such causes of delay or failure shall extend the period of performance until after the causes of delay or failure have been removed provided the non-performing party exercises all reasonable due diligence to perform. Force majeure is defined as acts of God, war, fires, explosions, hurricanes, floods, failure of transportation, or other causes that are beyond the reasonable control of either party and that by exercise of due foresight such party could not reasonably have been expected to avoid, and which, by the exercise of all reasonable due diligence, such party is unable to overcome.

9.14 NO WAIVER OF PROVISIONS

The failure of the System Agency to object to or to take affirmative action with respect to any conduct of the Grantee which is in violation or breach of the terms of the Contract shall not be construed as a waiver of the violation or breach, or of any future violation or breach.

9.15 PUBLICITY

- A. Except as provided in the paragraph below, Grantee must not use the name of, or directly or indirectly refer to, the System Agency, the State of Texas, or any other State agency in any media release, public announcement, or public disclosure relating to the Contract or its subject matter, including in any promotional or marketing materials, customer lists, or business presentations.
- B. Grantee may publish, at its sole expense, results of Grantee performance under the Contract with the System Agency’s prior review and approval, which the System Agency may exercise at its sole discretion. Any publication (written, visual, or sound) will acknowledge the support received from the System Agency and any Federal agency, as appropriate.
- C. Contractor is prohibited from using the Work for any Contractor or third party marketing, advertising, or promotional activities, without the prior written consent of System Agency. The foregoing prohibition includes, without limitation, the placement of banners, pop-up ads, or other advertisements promoting Contractor’s or a third party’s products, services, workshops, trainings, or other commercial offerings on any website portal or internet-based service or software application hosted or managed by Contractor as part of the Work.

9.16 PROHIBITION ON NON-COMPETE RESTRICTIONS

Grantee shall not require any employees or Subcontractors to agree to any conditions, such as non-compete clauses or other contractual arrangements that would limit or restrict such persons or entities from employment or contracting with the State of Texas.

9.17 NO WAIVER OF SOVEREIGN IMMUNITY

Nothing in the Contract will be construed as a waiver of the System Agency’s or the State’s sovereign immunity. This Contract shall not constitute or be construed as a waiver of any of the privileges, rights, defenses, remedies, or immunities available to the System Agency or the State of Texas. The failure to enforce, or any delay in the enforcement, of any privileges, rights, defenses, remedies, or immunities available to the System Agency or the State of Texas under the Contract or under applicable law shall not constitute a waiver of such privileges, rights, defenses, remedies, or immunities or be considered as a basis for estoppel. System Agency does not waive any privileges, rights, defenses, or immunities available to System Agency by entering into the Contract or by its conduct prior to or subsequent to entering into the Contract.

9.18 ENTIRE CONTRACT AND MODIFICATION

The Contract constitutes the entire agreement of the Parties and is intended as a complete and exclusive statement of the promises, representations, negotiations, discussions, and other agreements that may have been made in connection with the subject matter hereof. Any additional or conflicting terms in any future document incorporated into the Contract will be harmonized with this Contract to the extent possible.

9.19 COUNTERPARTS

This Contract may be executed in any number of counterparts, each of which will be an original, and all such counterparts will together constitute but one and the same Contract.

Each Party represents and warrants that the person executing this Contract on its behalf has full power and authority to enter into this Contract.

Article VII. CONFIDENTIALITY

7.01 Confidential System Information

HHSC prohibits the unauthorized disclosure of Other Confidential Information. Contractor and all Contractor Agents will not disclose or use any Other Confidential Information in any manner except as is necessary for the Work or the proper discharge of obligations and securing of rights under the Contract. Contractor will have a system in effect to protect Other Confidential Information. Any disclosure or transfer of Other Confidential Information by Contractor, including information requested to do so by HHSC, will be in accordance with the Contract. If Contractor receives a request for Other Confidential Information, Contractor will immediately notify HHSC of the request, and will make reasonable efforts to protect the Other Confidential Information from disclosure until further instructed by the HHSC.

Contractor will notify HHSC promptly of any unauthorized possession, use, knowledge, or attempt thereof, of any Other Confidential Information by any person or entity that may become known to Contractor. Contractor will furnish to HHSC all known details of the unauthorized possession, use, or knowledge, or attempt thereof, and use reasonable efforts to assist HHSC in investigating or preventing the reoccurrence of any unauthorized possession, use, or knowledge, or attempt thereof, of Other Confidential Information.

HHSC will have the right to recover from Contractor all damages and liabilities caused by or arising from Contractor or Contractor Agents' failure to protect HHSC's Confidential Information as required by this section.

IN COORDINATION WITH THE INDEMNITY PROVISIONS CONTAINED IN THE UTC, Contractor WILL INDEMNIFY AND HOLD HARMLESS HHSC FROM ALL DAMAGES, COSTS, LIABILITIES, AND EXPENSES (INCLUDING WITHOUT LIMITATION REASONABLE ATTORNEYS' FEES AND COSTS) CAUSED BY OR ARISING FROM Contractor OR Contractor AGENTS FAILURE TO PROTECT OTHER CONFIDENTIAL INFORMATION. Contractor WILL FULFILL THIS PROVISION WITH COUNSEL APPROVED BY HHSC.

Article VIII. DISPUTES AND REMEDIES

8.01 Agreement of the Parties

The Parties agree that the interests of fairness, efficiency, and good business practices are best served when the Parties employ all reasonable and informal means to resolve any dispute under the Contract before resorting to formal dispute resolution processes otherwise provided in the Contract. The Parties will use all reasonable and informal means of resolving disputes prior to invoking a remedy provided elsewhere in the Contract, unless HHSC immediately terminates the Contract in accordance with the terms and conditions of the Contract.

Any dispute, that in the judgment of any Party to the Agreement, may materially affect the performance of any Party will be reduced to writing and delivered to the other Party within 10 business days after the dispute arises. The Parties must then negotiate in good faith and use every reasonable effort to resolve the dispute at the managerial or executive levels prior to initiating formal proceedings pursuant to the UTC and Texas Government Code §2260, unless a Party has reasonably determined that a negotiated resolution is not possible and has so notified the other Party. The resolution of any dispute disposed of by agreement between the Parties will be reduced to writing and delivered to all Parties within 10 business days of such resolution.

8.02 Operational Remedies

The remedies described in this section may be used or pursued by HHSC in the context of the routine operation of the Contract and are directed to Contractor's timely and responsive performance of the Work as well as the creation of a flexible and responsive relationship between the Parties. Contractor agrees that HHSC may pursue operational remedies for Items of Noncompliance with the Contract. At any time, and at its sole discretion, HHSC may impose or pursue one or more said remedies for each Item of Noncompliance. HHSC will determine operational remedies on a case-by-case basis which include, but are not, limited to:

- (a) Requesting a detailed Corrective Action Plan, subject to HHSC approval, to correct and resolve a deficiency or breach of the Contract;
- (b) Require additional or different corrective action(s) of HHSC's choice;
- (c) Suspension of all or part of the Contract or Work;
- (d) Prohibit Contractor from incurring additional obligations under the Contract;
- (e) Issue Notice to stop Work Orders;
- (f) Accelerated or additional monitoring;
- (g) Withholding of payments; and
- (h) Additional and more detailed programmatic and financial reporting.

HHSC's pursuit or non-pursuit of an operational remedy does not constitute a waiver of any other remedy that HHSC may have at law or equity; excuse Contractor's prior substandard performance, relieve Contractor of its duty to comply with performance standards, or prohibit HHSC from assessing additional operational remedies or pursuing other appropriate remedies for continued substandard performance.

HHSC will provide notice to Contractor of the imposition of an operational remedy in accordance with this section, with the exception of accelerated monitoring, which may be unannounced. HHSC may require Contractor to file a written response as part of the operational remedy approach.

8.03 Equitable Remedies

Contractor acknowledges that if, Contractor breaches, attempts, or threatens to breach, any obligation under the Contract, the State will be irreparably harmed. In such a circumstance, the State may proceed directly to court notwithstanding any other provision of the Contract. If a court of competent jurisdiction finds that Contractor breached, attempted, or threatened to breach any such obligations, Contractor will not oppose the entry of an order compelling performance by Contractor and restraining it from any further breaches, attempts, or threats of breach without a further finding of irreparable injury or other conditions to injunctive relief.

8.04 Continuing Duty to Perform

Neither the occurrence of an event constituting an alleged breach of contract, the pending status of any claim for breach of contract, nor the application of an operational remedy, is grounds for the suspension of performance, in whole or in part, by Contractor of the Work or any duty or obligation with respect to the Contract.

Article IX. DAMAGES

9.01 Availability and Assessment

HHSC will be entitled to actual, direct, indirect, incidental, special, and consequential damages resulting from Contractor's failure to comply with any of the terms of the Contract. In some cases, the actual damage to HHSC as a result of Contractor's failure to meet the responsibilities or performance standards of the Contract are difficult or impossible to determine with precise accuracy. Therefore, if provided in the Contract, liquidated damages may be assessed against Contractor for failure to meet any aspect of the Work or responsibilities of the Contractor. HHSC may elect to collect liquidated damages:

- (a) Through direct assessment and demand for payment to Contractor; or
- (b) By deducting the amounts assessed as liquidated damages against payments owed to Contractor for Work performed. In its sole discretion, HHSC may deduct amounts assessed as liquidated damages as a single lump sum payment or as multiple payments until the full amount payable by the Contractor is received by the HHSC.

9.02 Specific Items of Liability

Contractor will protect HHSC's real and personal property from damage arising from Contractor or Contractor Agents performance of the Contract, and Contractor will be responsible for any loss, destruction, or damage to HHSC's property that results from or is caused by Contractor or Contractor Agents' negligent or wrongful acts or omissions. Upon the loss of, destruction of, or damage to any property of HHSC, Contractor will notify HHSC thereof and, subject to direction from HHSC or its designee, will take all reasonable steps to protect that property from further damage. Contractor agrees, and will require Contractor Agents, to observe safety measures and proper operating procedures at HHSC sites at all times. Contractor will immediately report to the HHSC any special defect or an unsafe condition it encounters or otherwise learns about.

IN COORDINATION WITH THE INDEMNITY PROVISIONS CONTAINED IN THE UTC, Contractor WILL BE SOLELY RESPONSIBLE FOR ALL COSTS INCURRED THAT ARE ASSOCIATED WITH INDEMNIFYING THE STATE OF TEXAS OR HHSC WITH RESPECT TO INTELLECTUAL, REAL AND PERSONAL PROPERTY. ADDITIONALLY, HHSC RESERVES THE RIGHT TO APPROVE COUNSEL SELECTED BY Contractor TO DEFEND HHSC OR THE STATE OF TEXAS AS REQUIRED UNDER THIS SECTION.

- (a) The least disruption in the delivery the Work during Turnover to HHSC or its designee; and
- (b) Full cooperation with HHSC or its designee in transferring the Work and the obligations of the Contract.

10.02 Turnover Assistance

Contractor will provide any assistance and actions reasonably necessary to enable HHSC or its designee to effectively close out the Contract and transfer the Work and the obligations of the Contract to another vendor or to perform the Work by itself. Contractor agrees that this obligation survives the termination, regardless of whether for cause or convenience, or the expiration of the Contract and remains in effect until completed to the satisfaction of HHSC.

Article XI. ADDITIONAL LICENSE AND OWNERSHIP PROVISIONS

11.01 HHSC Additional Rights

HHSC will have ownership and unlimited rights to use, disclose, duplicate, or publish all information and data developed, derived, documented, or furnished by Contractor under or resulting from the Contract. Terms in any licenses for Third Party Software will be consistent with the requirements of this section. Prior to utilizing any Third Party Software product not identified in the Solicitation Response, Contractor will provide HHSC copies of the license agreement from the licensor of the Third Party Software to allow HHSC to, in its discretion, object to the license agreement that must, at a minimum, provide HHSC with necessary rights consistent with the short and long-term goals of the Contract. Contractor will assign to HHSC all licenses for the Third Party Software as necessary to carry out the intent of this section.

Contractor will, during the Contract, maintain any and all Third Party Software at their most current version or no more than one version back from the most current version. However, Contractor will not maintain any Third Party Software versions, including one version back, if notified by HHSC that any such version would prevent HHSC from using any functions, in whole or in part, of HHSC systems or would cause deficiencies in HHSC systems.

11.03 Software and Ownership Rights

In accordance with 45 C.F.R. Part 95.617, all appropriate federal agencies will have a royalty-free, nonexclusive, and irrevocable license to reproduce, publish, translate, or otherwise use, and to authorize

others to use for government purposes all Work, materials, Custom Software and modifications thereof, source code, associated documentation designed, developed, or installed with Federal Financial Participation under the Contract, including but not limited to those materials covered by copyright.

ARTICLE 1. EXECUTIVE SUMMARY, DEFINITIONS, AND AUTHORITY

1.1 EXECUTIVE SUMMARY

The Health and Human Services Commission (HHSC), Medical and Social Services (MSS) Intellectual and Developmental Disabilities (IDD) **Behavioral Health Services Section** announces the expected availability of grant funds to provide Substance Use and Misuse Prevention Services. This five-year grant starts at the beginning of the State Fiscal Year (FY) 2020.

Applicants may apply for one or more of the program types. The following program types for this RFA are:

1. Community Coalition Partnerships (CCP)
2. Prevention Resource Centers (PRC)
3. Youth Prevention Indicated (YPI)
4. Youth Prevention Selective (YPS)
5. Youth Prevention Universal (YPU)

Funds are being awarded in all Health and Human Services (HHS) Health Regions of the state.

If an Applicant is proposing to provide more than one program type, a complete and separate application is required for each program type per Health Region. Special consideration will be given to applications that serve special populations, such as military/veteran families and their children, Tribal communities, homeless individuals, rural communities, Colonias, lesbian, gay, bisexual, and transgender (LGBT), and populations with health disparities related to substance use and misuse according to the state's four prevention priorities: underage alcohol use, tobacco and nicotine products, marijuana and other cannabinoids, and prescription drug misuse.

A separate **Form C** through **F**, and **Form G** through **J** as applicable to program type, must be submitted for each separate program type and curriculum.

A separate set of Budget forms (**Form N**) are required for each program type and curriculum. **The Budget must reflect expected expenses and budget categories per Health Region, in addition to the total amount that is requested.**

If a single program type is delivered in multiple sites within a Health Region, it will be scored as a single application. Texas Health Regions can be found in **Appendix C: Map of HHS Health Regions**.

To be considered for an award, Applicants must execute **Exhibit A, Affirmations and Solicitation Acceptance**, of this Solicitation and provide all other required information and documentation as set forth in this Solicitation.

1.3 AUTHORITY

The System Agency is requesting applications under Section 1921 of Title XIX, Part B, Subpart II and III of the Public Health Services (PHS) Act, which established the Substance Abuse Prevention and Treatment Block Grant (SABG) Program; and Texas Government Code Chapters 531, to the extent applicable

ARTICLE 2. SCOPE OF GRANT AWARD

2.1 PROGRAM BACKGROUND

The development of this grant for primary Substance Use and Misuse Prevention Services is based on federal regulation ([45 CFR §96.125](#)) requiring states to use at least 20 percent of their Substance Abuse Prevention and Treatment Block Grant (SABG) allotment towards primary prevention. Federal regulation requires states to develop a comprehensive primary substance use and misuse prevention program that includes activities and services provided in a variety of settings directed at individuals who have not been determined to require treatment for a substance use disorder within the Institute of Medicine's (IOM) Continuum of Care. The substance use and misuse prevention programs outlined in this RFA, align with the Texas Statewide Behavioral Health Strategic Plan (<https://hhs.texas.gov/sites/default/files/050216-statewide-behavioral-health-strategic-plan.pdf>) and the Substance Abuse and Mental Health Services Administration's (SAMHSA) guidance on substance use and misuse and information found in the *Focus on Prevention* literature (<https://store.samhsa.gov/product/Focus-on-Prevention/sma10-4120>).

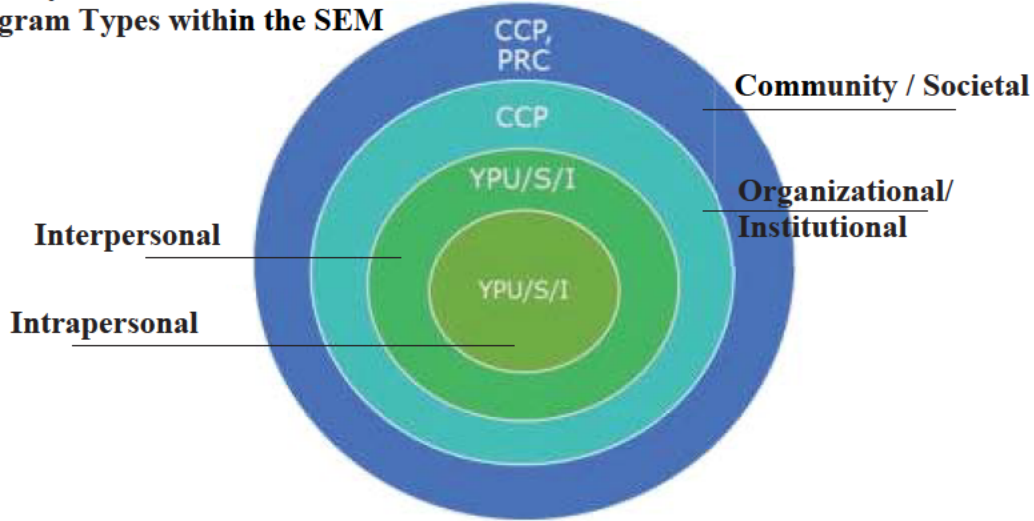

Grantees providing substance use and misuse prevention services follow the Strategic Prevention Framework (SPF) planning process of SAMHSA (<https://www.samhsa.gov/capt/applying-strategic-prevention-framework>) as a guide to assist communities in planning and implementing prevention strategies, programs, and activities. The SPF is a five-step process used to help communities reduce risk-taking behaviors, promote resilience, and prevent problem behaviors in individuals and families across the life span. This framework is based on several critical principles: prevention as a continuum; the methods of prevention are the same for many diseases, behaviors, and disorders; successful prevention decreases risk factors while enhancing protective factors; prevention strategies should use proven practices within systems that work; systems of prevention services work better than isolated efforts; information and tools should be shared across service systems; and substance use should be addressed comprehensively.

Grantees must strengthen prevention efforts and strategies for coordination across multiple levels of impact following the Social Ecological Model (SEM). The SEM is a conceptual framework developed to better understand the multidimensional factors that influence health behavior and to categorize health intervention strategies (McLeroy et al., 1988). Intrapersonal factors are the internal characteristics of the individual of focus and include knowledge, skills, attitudes, and beliefs. Interpersonal factors include social norms and interactions with significant others, such as family, friends, and teachers. Organizational/institutional factors are social and physical factors that indirectly impact the individual of focus (e.g., zero tolerance school policies, classroom size, and mandatory workplace drug testing). Finally, community/societal factors include neighborhood connectedness, collaboration between organizations, and policy.

The SEM proposes that behavior is impacted by all levels of influence, from the intrapersonal to the societal, and that the effectiveness of health promotion programs is

significantly enhanced through the coordination of interventions targeting multiple levels. For example, changes at the community level will create change in individuals and support of individuals in the population is essential for implementing environmental change.

Primary Focus of Program Types within the SEM

2.1.1 Six Core Prevention Strategies

The programs being funded through this grant adhere to the six core prevention strategies developed by SAMHSA's Center for Substance Abuse Prevention (CSAP) that can be applied to most substance use issues and can help shape prevention plans. These six prevention strategies are the core of the program services identified in this grant:

1. Information Dissemination;
2. Prevention Education;
3. Positive Alternatives;
4. Environmental Strategies;
5. Community-Based Processes;
6. Problem Identification and Referral.

2.1.2 Individual Program Types

Eligible entities may apply to provide substance use and misuse prevention services in any of the 254 counties in Texas. All program types will address the State's four prevention priorities: underage alcohol use, underage tobacco and nicotine products use, marijuana and other cannabinoids use, and prescription drug misuse. Grantees of this RFA will work together with other System Agency-funded Grantees to address substance use and misuse. This grant offers five individual program types that are listed as follows:

1. Community Coalition Partnerships (CCP)
2. Prevention Resource Centers (PRC)
3. Youth Prevention Indicated (YPI)
4. Youth Prevention Selective (YPS)
5. Youth Prevention Universal (YPU)

2.2 COMMUNITY COALITION PARTNERSHIPS (CCP)

These programs work in the community to engage and mobilize various sectors of the community to implement evidence-based environmental strategies with a primary focus on changing policies and influencing social norms related to substance use and misuse. Coalitions utilize the Strategic Prevention Framework (SPF), a 5-step process to guide the selection, implementation, and evaluation of effective, culturally appropriate, and sustainable prevention activities. Grantees must address alcohol/underage drinking along with one or more of the other State prevention priorities of marijuana use, prescription drug misuse, or tobacco use based on the identified needs of the community. The primary population is adolescents, young adults ages 18-25 in colleges and universities, and the general community. CCPs must work with other System Agency-funded Grantees to address substance use and misuse. CCPs **do not** provide or subcontract for prevention education, and skills training, or positive alternatives.

2.3 PREVENTION RESOURCE CENTERS (PRC)

These programs work to increase the capacity of the statewide substance use and misuse prevention system. PRC programs enhance community collaboration, increase community awareness and readiness, provide information and resources on substance use and related behavioral health data, support professional development of the prevention workforce, and provide resources for evaluation activities within each service region. The primary target population is all System Agency-funded substance use and misuse prevention providers in the health region. The target population may also include school administrators and teachers, community groups and coalitions, Education Services Centers (ESCs), Local Mental Health Authorities (LMHAs) and Local Behavioral Health Authorities (LBHAs), substance use disorder intervention and treatment organizations, law enforcement, healthcare entities, healthcare providers, pharmaceutical entities that hold information about substance use or prescription medication, tobacco retailers, higher education institutions, and community stakeholders including youth, students, parents, and residents in Texas. PRCs also support the federal Synar requirement by conducting voluntary tobacco retail compliance checks throughout the state to help reduce youth access to tobacco and other nicotine products. PRCs also serve as a point of contact and provide local coordination with our statewide prevention training entity to host prevention trainings in each region.

2.4 YOUTH PREVENTION INDICATED (YPI)

Youth Prevention Indicated (YPI) strategies target individuals due to initiative behaviors and/or related risk factors that place the individual at an elevated risk for substance use and misuse. The primary population is youth in grades 6th through 12th (or youth up to age 18 who are currently not enrolled in school) that meet the program and curriculum criteria. While the target population may show early signs of substance use and misuse, indicated services are not designed for individuals with a diagnosable substance use disorder. The secondary population may include: (a) parents, grandparents, guardians, and siblings of youth participants, and (b) community members in the funded service area.

2.5 YOUTH PREVENTION SELECTIVE (YPS)

Youth Prevention Selective (YPS) strategies target subgroups known to be at higher risk for substance use and misuse than the general population. The primary population is youth Pre-Kindergarten to 12th grade who are at risk for substance use and misuse because they belong to a subgroup of the general population that is known to have risk factors that increase the likelihood of substance use and misuse. Targeted subgroups may be defined by, but not limited to, academic failure, truancy, or residing in economically challenged neighborhoods or communities high in gang violence. The secondary population may include: (a) parents, grandparents, guardians, and siblings of youth participants, and (b) community members in the funded service area.

2.6 YOUTH PREVENTION UNIVERSAL (YPU)

Youth Prevention Universal (YPU) strategies take the broadest approach and are designed to reach entire groups or populations. Universal prevention strategies may target schools, workplaces, or whole communities. The primary population is all youth, Pre-Kindergarten to 12th grade, from the general population. The secondary population may include: (a) parents, grandparents, guardians, and siblings of youth participants, and (b) community members in the funded service area.

ARTICLE 4. SOLICITATION RESPONSE EVALUATION AND AWARD PROCESS

2. Specific evaluation criteria;
3. Final Selection based upon State priorities.

Proposals are initially screened for eligibility and completeness. The preliminary screening or eligibility criteria requirements include the following:

1. A complete proposal received on or before the proposal due date and time.
2. The original proposal bears a verifiable signature of the authorized official of the Applicant organization on **Form A: Respondent Information (Face Page)**.
3. If a Grantee chooses to contract for goods and services using the funding awarded in this grant, HHSC encourages the Grantee to utilize HUBs to provide those goods and services where possible.
4. **Form K: Administrative Information** will be used in the initial screening process. This information may be used to exclude a proposal from review at the sole discretion of the System Agency.
5. Must have a Texas address. A post office box may be used when the proposal is submitted, but the Applicant must conduct business at a physical location in the Texas region where services are to be provided prior to the date that the grant is awarded.

In conducting the screening process, the System Agency at its sole discretion may give Applicants an opportunity to submit missing information or correct identified areas of noncompliance within a specified period of time. In such an instance, if no new information is received by the stated deadline, the proposal will be screened as is or may be disqualified from the evaluation process.

Proposals may be excluded from review and evaluation based on the screening process or administrative information provided on Form K.

4.3 EVALUATION

Applications will be evaluated and scored in accordance with the factors required by **Section 2.9, Program Requirements; Article 5, Narrative Proposal**; and other factors deemed relevant by HHSC.

4.4 FINAL SELECTION BASED UPON STATE PRIORITIES

HHSC intends on making multiple awards. After initial screening for eligibility, application completeness, and initial scoring of the elements listed above in **Section 4.3**, a selection committee will look at all eligible Applicants to determine which proposals should be awarded in order to most effectively accomplish state priorities. The selection committee will recommend grant awards to be made to the HHSC Executive Commissioner, who will make the final award approval.

HHSC will make all final funding decisions based on eligibility, geographic distribution across the state, community need, population of focus, state priorities, availability of funding, and cost-effectiveness.

In the event of tied scores during the evaluation of proposals, the following criteria will be used to break the tie:

1. Overall number of people each Applicant is proposing to serve;
2. Estimated cost per participant;
3. Past performance;
4. Proposal to serve special population(s), underserved geographic area(s), or disaster impacted areas;
5. Letters of Agreement or Letters of Support;
6. Staff qualifications and expertise;
7. Quality of work plan proposed to meet the needs described in the needs assessment;
8. Demonstrated understanding of the Strategic Prevention Framework and how proposed services align with the model;
9. Innovative activities and/or interventions; and
10. Current award(s) from state, federal, and/or local grant funding for substance use and misuse prevention services.

4.5 NEGOTIATION AND AWARD

The specific dollar amount awarded to each successful Applicant will depend upon the merit and scope of the Application, the recommendation of the Selection Committee, and the decision of the Executive Commissioner. Not all Applicants who are deemed eligible to receive funds are assured of receiving an award.

The negotiation phase will involve direct contact between the successful Applicant and HHSC representatives via phone and/or email. During negotiations, successful Applicants may expect:

1. An in-depth discussion of the submitted proposal and budget; and
2. Requests from HHSC for clarification or additional detail regarding submitted Application.

The final funding amount and the provisions of the contract will be determined at the sole discretion of HHSC staff.

HHSC may announce tentative or apparent grant recipients once the Executive Commissioner has given approval to initiate negotiation and execute contracts.

Any exceptions to the requirements, terms, conditions, or certifications in the RFA or attachments, addendums, or revisions to the RFA or General Provisions, sought by the Applicant must be specifically detailed in writing by the Applicant on Exhibit D, Exceptions Form in this proposal and submitted to HHSC for consideration. HHSC will accept or reject

each proposed exception. HHSC will not consider exceptions submitted separately from the Applicant's proposal or at a later date.

HHSC will post to the HHS Grants Website and may publicly announce a list of Applicants whose applications are selected for final award. This posting does not constitute HHSC's agreement with all the terms of any Applicant's proposal and does not bind HHSC to enter into a contract with any Applicant whose award is posted.
