Statement of Work

1 Overview

Texas Health and Human Services Commission (“HHSC”) seeks to provide behaviorally focused, evidence-based nutrition education and obesity prevention interventions or projects to the Texas SNAP-Ed Target Audience. Intervention strategies must align with [Dietary Guidelines for Americans 2020-2025](#) and [FY 2022 SNAP-Ed Plan Guidance](#). The goal is to improve the likelihood that SNAP participants will make healthy food choices, choose physically active lifestyles, and implement nutrition education and obesity prevention programs. Grants awarded to provide SNAP-ED interventions are intended to provide evidence-based nutrition education and obesity prevention activities as authorized by *Human Resources Code*, Title 2, Subtitle C, Chapter 33, Nutritional Assistance Program.

This Statement of Work explains the following:

- A. Applicable federal, state, and HHSC requirements with which the Grantee is required to comply;
- B. Standards of conduct applicable to the Grantee;
- C. HHSC performance measures and expectations for the Grantee;
- D. The limitations on grant fund expenditures to authorized services; and
- E. Financial and program monitoring requirements to ensure that Grantee’s expenditures do not exceed the grant amount awarded by contract, subject to available funding, or the availability of funding.

2 Contract Requirements

HHSC is contracting with Grantee to deliver an effective nutrition education, physical activity and/or obesity prevention program to the greatest number of Texans possible and deliver services in counties throughout Texas without provider overlap.

- A. The Grantee must provide evidence-based services to the Texas SNAP-Ed target population: individuals participating in SNAP, individuals who qualify to receive SNAP benefits or other means-tested Federal assistance programs, such as Medicaid or Temporary Assistance for Needy Families (TANF); and individuals residing in communities meeting the general low-income standard. The general low-income standard is defined as fifty (50) percent or more of persons have household incomes of less than or equal to 185 percent of the Federal Poverty Level (FPL).
- B. SNAP-Ed Providers may use one or more of the following measures to identify the target audience:
 - 1. Income based [Social Security Income (SSI), Women, Infants, and Children (WIC), TANF)];
 - 2. Location-based (food banks, food pantries, soup kitchens, public housing, SNAP/TANF job readiness program sites);

3. Locations serving low-income populations where at least fifty (50) percent of persons are at or below 185 percent of the Federal Poverty Level (FPL) (persons residing in the area, schools or childcare centers located at census tract areas or low-income defined areas, and schools where at least fifty (50) percent of the children receive free and reduced-price meals); and
 4. Retail locations serving low-income populations (grocery stores who redeem \$50,000 or more of SNAP benefits, grocery stores in census tracts where at least fifty (50) percent or more persons are at or below 185 percent of the FPL). For example, a store may redeem a monthly average of \$50,000 in SNAP-benefits in a low-income defined area. If the store does not average \$50,000 or more, the store could demonstrate that it serves a majority of SNAP low-income population compared to overall sales or show that it is the only grocery store in the entire low-income defined community serving the target population.
- C. SNAP-Ed nutrition education and obesity prevention interventions and projects must be evidence-based and include research-based, practice-based, and emerging strategies.
- D. Grantee has submitted detailed approaches, processes, plans and strategies in their Operational Plan, Staffing Plan, and corresponding expenditure proposal for each project.
- E. Grantee provided specific information on how the venues, service areas, or communities for priority project(s) are reaching the target SNAP-Ed audience and has certified audience meets the general low-income standard.
- F. Grantee meets the overall objectives and goals of SNAP-Ed by implementing the evidence-based nutrition education and obesity prevention activities through Approach One and at least one additional approach as defined below.
- I. Approach One: Individual or group-based direct nutrition education, health promotion, and intervention approaches.
 - a. Activities conducted at the individual level are a direct education delivery approach in SNAP-Ed.
 - b. The direct nutrition education and physical activity interventions implemented should incorporate features that have shown to be effective, such as:
 - i. Behaviorally-focused strategies;
 - ii. Culturally relevant/appropriate motivators and reinforcements;
 - iii. Multiple channels of communication to convey messages;
 - iv. Approaches that allow for active personal engagement; and
 - v. Intensity and duration that provide opportunities to reinforce behaviors.
 - c. This intervention approach must be combined with interventions and strategies from Approaches Two and/or Three.
 - II. Approach Three: Community-based PSE projects consistent with FY 2022 SNAP-Ed Plan Guidance.

- a. Efforts that impact a large segment of the population, rather than targeting the individual or a small group; and
- b. According to the Center for Disease Control (CDC), public health interventions are community-focused, population-based interventions aimed at preventing a disease/condition or limiting death/disability from a disease/condition.

These approaches provide opportunities to reach the SNAP-Ed Target Audience with nutrition and lifestyle messages that encourage healthy behaviors.

Evidence based interventions includes research-based, practice-based, and emerging strategies.

- A. Research-based approaches are based upon relevant, rigorous nutrition and public health nutrition research including systematically reviewed scientific evidence, and other published studies and evaluation reports that demonstrate significant effects on individual behaviors, food/physical activity environments, or policies across multiple populations, settings, or locales.
- B. Practice-based approaches are based upon published or unpublished evaluation reports and case studies by practitioners working in the field that have shown positive effects on individual behaviors, food/physical activity environments, or policies.
- C. Emerging strategies include community or practitioner-driven activities that have the potential for obesity prevention but have not yet been formally evaluated for obesity prevention outcomes. Evaluation indices may reflect cultural or community-informed measures of success. Emerging strategies or interventions require a justification for a novel approach and must be evaluated for effectiveness.

The Grantee will demonstrate the ability to support two (2) or more of the six (6) state goals:

- A. Implement health promotion activities to help the SNAP-Ed Target Audience establish healthy eating habits and a physically active lifestyle.
- B. Reduce risk factors for chronic diseases such as obesity, type 2 diabetes, and cardiovascular disease among the SNAP-Ed Target Audience.
- C. Increase partnership collaboration of nutrition, physical activity, and wellness education across the state.
- D. Increase consumption of fruits, vegetables, and other foods that comprise a healthy diet among the SNAP-Ed Target Audience.
- E. Increase ongoing physical activity among the SNAP-Ed Target Audience in accordance with **Physical Activity Guidelines 2nd Edition**.
- F. Increase PSE projects consistent with **FY 2022 SNAP-Ed Plan Guidance**.

3 Health Care Priority Project

Evidence-based projects/programs delivered by, or in collaboration/partnership with health care organizations, including federally-qualified health centers, local health departments, free clinics, and

other health care entities. Health promotion and primary prevention of disease should be the focus and aim of SNAP-Ed activities for projects proposed under this project. Examples of health care partnerships could be one or more of the following to the targeted SNAP-Ed populations:

- A. Providing evidence-based nutrition education programming within the health care organization to regular patients;
- B. Soliciting the support of non-profit hospitals to fund community benefits by providing access to summer meals, using dietitians to teach healthy eating in schools, and providing farmers markets;
- C. Deploying a tiered approach to treat and prevent childhood obesity by providing the following:
 - 1. Direct intervention to the children and families;
 - 2. Best practices and tools to primary care and pediatric clinics and clinicians serving the target population; and
 - 3. Multi-media health promotion resources and support activities for the target populations; and
 - 4. Designing and providing health education and exercise training for after school programs through the hospital fitness and wellness program which target children and decrease the health risks of obesity.

4 Location of Services

5 Attendance Requirement

All programs and services must be at no cost to the participant. Services shall be provided in accordance with the specifications contained and in compliance with the SNAP-Ed Grant Requirements listed in this document.

administrative and program costs allowable under Code of Federal Regulations (C.F.R.) Title 2, Subtitle A, Chapter II-Part 200.405, Allocable Costs, and **FY 2022 SNAP-Ed Plan** that are reasonable and necessary to operate approved nutrition education activities. The Grantee must provide assurances that the Grantee's cost of activities is not funded from another federal source. In addition, HHSC does not provide start-up funding or issue advance payments.

As such, the reports, plans, processes and documents must be objective, clearly written and accurate so that they can be relied upon by HHSC in making decisions that relate to operations, policy and performance, and to the Grantee's compliance with its obligations under the contract.

HHSC defined the content, acceptance criteria, and format of the deliverables, and will work with the Grantee to clarify HHSC expectations. Each deliverable must meet the Acceptance Criteria for that deliverable as of the initial due date of its submission. Each deliverable that does not meet the applicable Acceptance Criteria upon submission will be considered noncompliant and will be treated as a late submission for purposes of any applicable service level agreements or performance requirements. The deliverable will continue to be regarded as late until an acceptable deliverable is re-submitted by the Grantee. HHSC may choose to exercise any remedies it may have in connection with the late submission of the deliverable. HHSC may review or require modifications to the deliverables at its discretion.

HHSC reserves the right to waive the review and approval of Grantee work products. HHSC approval of the Grantee's work product will not relieve the Grantee of liability for errors and omissions in the work product.

If coverage expires during the term of this Contract, Grantee must produce renewal certificates for each type of coverage.

Should Grantee subcontract any of the services required in the Contract, Grantee expressly understands and acknowledges that in entering such subcontract(s), System Agency is in no manner liable to any Subcontractor(s) of Grantee. In no event shall this provision relieve Grantee of the responsibility for ensuring that the services performed under all subcontracts are rendered in compliance with the Contract. Grantee shall have no claim against System Agency for vacation pay, sick leave, retirement benefits, social security, worker's compensation, health or disability benefits, unemployment insurance benefits, or employee benefits of any kind. enforceability of such provision shall not be held to render any other provision or provisions of this Contract unenforceable.

9.12 SURVIVABILITY

Expiration or termination of the Contract for any reason does not release Grantee from any liability or obligation set forth in the Contract that is expressly stated to survive any such expiration or termination, that by its nature would be intended to be applicable following any such expiration or termination, or that is necessary to fulfill the essential purpose of the Contract, including without limitation the provisions regarding warranty, indemnification, confidentiality, and rights and remedies upon termination.

This Contract shall not constitute or be construed as a waiver of any of the privileges, rights, defenses, remedies, or immunities available to the System Agency or the State of Texas. The failure to enforce, or any delay in the enforcement, of any privileges, rights, defenses, remedies, or immunities available to the System Agency or the State of Texas under the Contract or under applicable law shall not constitute a waiver of such privileges, rights, defenses, remedies, or immunities or be considered as a basis for estoppel. System Agency does not waive any privileges, rights, defenses, or immunities available to System Agency by entering into the Contract or by its conduct prior to or subsequent to entering into the Contract.
