I. PURPOSE

The purpose of this program is to reduce opioid overdose death and improve access to opioid response services through partnership with Family Planning programs. Performing Agency will establish and provide oversight for a single-site integrated Family Planning (IFPOR) Opioid Response program.

Integrated Family Planning Opioid Response (IFPOR) programs combine prevention, treatment, and recovery support strategies with a primary focus on reducing overdose death. IFPOR programs implement programming using four key strategies: provide overdose reversal education and disseminate opioid overdose reversal medication; provide induction onto U.S. Food and Drug Administration approved medications used to treat opioid use disorder and link patients to ongoing care; provide peer recovery support services; and provide community health care provider follow-up and support.

GOALS

1. To prevent opioid overdose death and increase access to opioid treatment and recovery services.
 - A. Achieve a target rate of 25 persons served per month when program is fully operational.

TARGET POPULATION

The primary population is all patients receiving Family Planning clinic services at risk for opioid overdose.

II. PERFORMING AGENCY RESPONSIBILITIES

1. PROGRAM IMPLEMENTATION

- A. Performing Agency will provide integrated opioid response prevention, treatment, and recovery services and activities:
 - a. to the identified primary population where the target population is located as approved by HHSC.
- B. The IFPOR provider site must be actively serving persons within the target population no later than three months following the date of the interagency contract agreement execution.

2. BASIC STRATEGIES

Performing Agency will utilize four basic strategies to provide integrated and collaborative opioid response services:

- A. **Strategy 1: Overdose Prevention Education and Naloxone** - This strategy provides education to patients, family, friends and supportive allies on how to

recognize and respond to an overdose event and provides access to opioid overdose reversal medications.

Performing Agency will:

1. Coordinate Health and Human Services Commission (HHSC)-approved overdose prevention education trainings for the participating Family Planning clinic site. Require a minimum of 25% of clinic staff attend this training within three months of project start date and 75% of staff receive training within six months of project start date.
 - a. **Deliverable: Submit a report in the fourth and seventh month of the project that details number of attendees, pre and post surveys, as well as attendee profession type.**
 2. Host at least one System Agency-approved overdose prevention community education training prior to the tenth month of project start.
 - a. **Deliverable: Provide a report no later than the 15th calendar day in the eleventh month of the contract that includes participant demographic information and pre and post surveys.**
 3. Provide and track overdose prevention education/training to a minimum of 25% of patients, partners, and supportive allies.
 - a. **Deliverable: Submit monthly reports documenting provision of overdose prevention education/training including demographic information in a System Agency-approved format due on the 15th of the following month.**
 4. Purchase and make available for distribution, supplies that aid in reducing opioid overdose risk including but not limited to overdose reversal kits that include overdose reversal medications. These materials should be made available concurrent with individual and group overdose prevention education and at upon patient, partner, supportive ally request. Fentanyl testing supplies may not be purchased with federal funds provided through this grant.
 - a. **Deliverable: On an ongoing basis, use System Agency-approved opioid overdose reversal application and documentation methods to track both provision of overdose reversal medication and overdose reversals.**
- B. **Strategy 2: Induction onto Medications and Coordinated Treatment** - A person that survives an opioid overdose with the use of opioid overdose reversal medications immediately experiences withdrawal symptoms. Untreated symptoms often result in a recurrence to use of opioids leaving the person vulnerable to a fatal overdose. Symptoms of withdrawal can be managed with FDA-approved medications used to treat opioid use disorder. This strategy

provides induction onto medications used to treat opioid use disorder and links the person with ongoing treatment services.

Performing Agency will:

1. Designate prescriber(s) of buprenorphine for the treatment of Opioid Use Disorder (OUD), and to ensure the designated provider(s) prescribing physician, nurse practitioners, and/or physician assistants participate in DATA 2000 Waiver Training and obtain the waiver to prescribe provide buprenorphine for the treatment of opioid use disorder for each designated prescriber within 30 days of project start date.
 - a. **Deliverable: Submit a report that lists waived prescribing practitioners 45 days from contract start date.**
 2. Participate in an ongoing System Agency-approved peer mentorship program. Peer mentorship will be provided by both an EMS Opioid Response pilot program and Office Based Opioid Treatment provider.
 - a. **Deliverable: Submit monthly documentation of peer mentorship activities due on the 15th of the following month.**
 3. Provide universal screening for opioid use disorder.
 - a. **Deliverable: Submit documentation of each clinic's policy requiring universal screening for opioid use disorder, a copy of the screening tool within one month of contract start date, and monthly patient screening reports in a System Agency-approved format due on the 15th of the following month.**
 4. Establish Memorandum of Agreement (MOA)s with local Outreach Screening Assessment and Referral providers to facilitate admission into ongoing Medication Assisted Treatment.
 - a. **Deliverable: MOAs must be made available upon request. NOTE: Performing Agency, as a provider of last resort, may elect to perform these functions in lieu of establishing MOAs.**
 5. Within 24 hours of identification of a patient with OUD, make available through a process of informed consent, induction onto buprenorphine for uninsured and under-insured patients with a diagnosis of opioid use disorder.
 - a. **Deliverable: Submit documentation of each IFPOR site's diversion control policy, the informed consent form, and patient engagement and retention policies within one month of project start date. Submit monthly patient induction reports including individualized plans for long term care and referrals in a System Agency-approved format due on the 15th of the following month.**
- C. **Strategy 3: Peer Recovery Support** – Through shared understanding, respect, and mutual empowerment, peer support workers help people become and stay engaged in the recovery process and reduce the likelihood of relapse. Peer support services can effectively extend the reach of treatment beyond the

clinical setting into the everyday environment of those seeking a successful, sustained recovery process. This strategy integrates peer recovery support into a traditional primary care environment.

Performing Agency will:

1. Coordinate System Agency-approved recovery support education and training. Require a minimum of 25% of clinic staff attend this training within three months of project start date and 75% of staff receive training within six months of project start date.
 - a. **Deliverable: Submit a report during the fourth and seventh month of the project that details number of attendees, pre and post surveys, as well as attendee profession type no later than the 15th calendar day of that month.**
 2. Contract with or staff certified peer recovery coaches. Recovery coaches must be available on an on-call basis to provide peer recovery support services for patients for a minimum of eight consecutive days after identification or induction and then once a week thereafter.
 - a. **Deliverable: Submit a monthly patient engagement and retention report in a System Agency-approved format due on the 15th of the following month.**
- D. **Strategy 4: Family Planning Follow-up and Support** – This strategy provides additional engagement and support activities to address unmet healthcare concerns expressed by the patient at risk for opioid overdose.

Performing Agency will:

1. Provide follow-up and support by clinic staff to address any co-occurring opioid use disorder and primary healthcare issues to all patients identified as being at risk for opioid overdose or opioid use disorder. Qualified medical staff must be available to provide primary care consultation and support services for patients for a minimum of eight consecutive days after identification or induction and then once a week thereafter.
 - a. **Deliverable: Submit a monthly patient engagement and retention report in a System Agency-approved format due on the 15th of the following month.**
- E. Performing Agency will perform and submit Government Performance and Results Act (GPRA) assessments for all participants who are considered engaged in treatment and recovery support services. If only referrals are made to treatment or recovery, Performing Agency does not have to submit GPRA reports. These assessments must be conducted face to face, unless a waiver is granted by the System Agency.

1. For treatment, the primary counselor shall conduct the GPRA assessment immediately after the patient is stabilized on a dose or within four weeks after admission, whichever is sooner. For recovery, at a minimum, a participant can be considered engaged if they have received recovery support for at least two months or they have committed to long term coaching.
 2. The GPRA assessments will be completed at intake, six-month follow-up, and discharge. Additionally, the six-month follow-up may be conducted between months five through seven, depending on the individual's availability. Performing Agency will use CMBHS to conduct, document and enter assessments as close to real time as possible.
 3. Performing Agency shall maintain a minimum 80 percent follow-up rate for the six-month assessment, regardless of discharge status (including closed cases, administrative discharges, and participants who have left the program).
 - a. **Deliverable: Performing Agency should upload their data into CMBHS within one calendar day – but no later than seven calendar days – after the GPRA assessment is conducted.**
- F. Performing Agency may offer incentives for completing the GPRA assessments mentioned below. The incentives may be offered as gift cards, transportation vouchers and/or phone cards. Performing Agency shall not offer cash for incentives. Performing Agency shall document all incentives provided to clients/participants and provide to System Agency upon request.
1. The Completion of a GPRA six-month follow-up interview (\$30 maximum per interview)
 2. GPRA discharge interviews where program staff must search for a participant who has left the program or a participant who has dropped out of a program. (\$30 maximum per interview)

7.4 SAO AUDIT

- A. The state auditor may conduct an audit or investigation of any entity receiving funds from the state directly under the Contract or indirectly through a subcontract under the Contract. The acceptance of funds directly under the Contract or indirectly through a subcontract under the Contract acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. Under the direction of the legislative audit committee, an entity that is the subject of an audit or investigation by the state auditor must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

The termination will be effective on the date specified in HHSC's notice of termination. The System Agency's right to terminate the Contract for convenience is cumulative of all rights and remedies which exist now or in the future.

8.3 TERMINATION FOR CAUSE

Except as otherwise provided by the U.S. Bankruptcy Code, or any successor law, the System Agency may terminate the Contract, in whole or in part, upon either of the following conditions:

The System Agency will have the right to terminate the Contract in whole or in part if the System Agency determines, in its sole discretion, that Grantee has materially breached the Contract or has failed to adhere to any laws, ordinances, rules, regulations or orders of any public authority having jurisdiction and such violation prevents or substantially impairs performance of Grantee's duties under the Contract. Grantee's misrepresentation in any aspect of Grantee's Solicitation Response, if any, or Grantee's addition to the Excluded Parties List System (EPLS) will also constitute a material breach of the Contract.

ii. **Failure to Maintain Financial Viability**

The System Agency may terminate the Contract if, in its sole discretion, the System Agency has a good faith belief that Grantee no longer maintains the financial viability required to complete the services and Deliverables, or otherwise fully perform its responsibilities under the Contract.

In the event that any policy is determined by the System Agency to be deficient to comply with the terms of this Contract, Grantee shall secure such additional policies or coverage as the System Agency may reasonably request or that are required by law or regulation. If coverage expires during the term of this Contract, Grantee must produce renewal certificates for each type of coverage.

THE DEFENSE SHALL BE COORDINATED BY GRANTEE WITH THE OFFICE OF THE TEXAS ATTORNEY GENERAL WHEN TEXAS STATE AGENCIES ARE NAMED DEFENDANTS IN ANY LAWSUIT AND GRANTEE MAY NOT AGREE TO ANY SETTLEMENT WITHOUT FIRST OBTAINING THE CONCURRENCE FROM THE OFFICE OF THE TEXAS ATTORNEY GENERAL. GRANTEE AND SYSTEM AGENCY AGREE TO FURNISH TIMELY WRITTEN NOTICE TO EACH OTHER OF ANY SUCH CLAIM.**
- B. THIS PARAGRAPH IS NOT INTENDED TO AND SHALL NOT BE CONSTRUED TO REQUIRE GRANTEE TO INDEMNIFY OR HOLD HARMLESS THE STATE OR THE SYSTEM AGENCY FOR ANY CLAIMS OR LIABILITIES RESULTING FROM THE NEGLIGENCE ACTS OR OMISSIONS OF THE SYSTEM AGENCY OR ITS EMPLOYEES.**
- C. For the avoidance of doubt, System Agency shall not indemnify Grantee or any other entity under the Contract.**

9.6 ASSIGNMENTS

Should Grantee subcontract any of the services required in the Contract, Grantee expressly understands and acknowledges that in entering such subcontract(s), System Agency is in no manner liable to any Subcontractor(s) of Grantee. In no event shall this provision relieve Grantee of the responsibility for ensuring that the services performed under all subcontracts are rendered in compliance with the Contract. Grantee shall have no claim against System Agency for vacation pay, sick leave, retirement benefits, social security, worker's compensation, health or disability benefits, unemployment insurance benefits, or employee benefits of any kind. The Contract shall not create any joint venture, partnership, agency, or employment relationship between Grantee and System Agency.

9.8 TECHNICAL GUIDANCE LETTERS

In the sole discretion of the System Agency, and in conformance with federal and state law, the System Agency may issue instructions, clarifications, or interpretations as may be required during work performance in the form of a Technical Guidance Letter (TGL). If any provision contained in this Contract is held to be unenforceable by a court of law or equity, this Contract shall be construed as if such provision did not exist and the non-

enforceability of such provision shall not be held to render any other provision or provisions of this Contract unenforceable.

9.12 SURVIVABILITY

Expiration or termination of the Contract for any reason does not release Grantee from any liability or obligation set forth in the Contract that is expressly stated to survive any such expiration or termination, that by its nature would be intended to be applicable following any such expiration or termination, or that is necessary to fulfill the essential purpose of the Contract, including without limitation the provisions regarding warranty, indemnification, confidentiality, and rights and remedies upon termination.

9.14 NO WAIVER OF PROVISIONS

Telehealth services will be provided during the COVID-19 pandemic. Patient incentives and transportation vouchers will be provided in order to retain patients in care and to address a significant barrier to continued attendance at follow-up appointments.

B. The clinical team at Baytown Health Center will adhere to Integrated Family Planning Opioid Response program strategies and reporting requirements for providing integrated and collaborative opioid response services.

Training will include pre- and post-session surveys for all attendees and attendee profession type will be documented and reported to HHSC.
- ii. Additional training will be developed and implemented for community members and completed prior to the tenth month after project start
- iii. Overdose prevention education and training will be provided to a minimum of 25% of patients, partners, and supportive allies.

- iv. Overdose prevention kits, including Naloxone, will continue to be available through the pharmacy at Baytown Health Center.

 - IV. When patients at Baytown Health Center screen positive for opioid use disorder, they will begin induction onto buprenorphine within 24 hours. Project Lead and Nurse Care Manager will supervise induction onto buprenorphine.
